PARI-MUTUEL RULES

WHEN A HORSE IS EXCUSED — If while wagering is in progress a horse shall be excused by the Stewards because of accident or casualty before leaving for the post, the pooling is not affected thereby. Tickets purchased on the horse that has been declared are redeemed at their cost value, such amount being subtracted from the pool.

A horse, after leaving the paddock for the post, may be excused by the Stewards in case of accident or casualty, but only in case where they consider such horse crippled, disabled or unfit to run.

When two or more horses are grouped in the Field or an Entry and only one starts, no money is refunded on the non-starters.

If a horse (or horses) is prevented from racing because of the failure of the stall door or the starting gate to open, a refund shall be made of the wagers on the horse thus prevented from starting, unless he be part of an entry, or the field, then there shall be no refund, provided that the entry or field has at least one actual starter.

MACHINES LOCKED AT "OFF BELL". Please make your wagers early. Turf Paradise assumes no responsibility for transactions not completed before totalisator machines are locked by the judges at the "off bell."

While every effort is made to insure the program is correct, Turf Paradise assumes no liability for errors or omissions.

Rulings of the Stewards with regard to the award of purse money, made after the result has been declared official, shall in no way affect the mutuel payoff.

NOTICE — Count your money before leaving cashier's window, as no errors can be corrected after leaving window.

Examine Mutuel Tickets before leaving seller's window. Tickets will not be exchanged thereafter.

Do not destroy Mutuel Tickets until the race is official. No claims will be entertained for tickets thrown away or destroyed.

POSTING OF PRICES DOES NOT SIGNIFY RACE IS OFFICIAL

QUINELLA WAGERING

The principle of a Quinella is in effect a contract by the purchaser of a Quinella ticket to select the first two horses to finish in the race.

The order in which the horses finish is immaterial.

No quinella wagering shall be allowed in any race in which there are field horses or entries of more than two horses per entry or field. In the event of an entry finishing first and second the net quinella pool shall be distributed to holders of tickets selecting that entry to win combined with the horse finishing third.

All tickets on the Quinella will be calculated in an entirely separate pool.

EXACTA WAGERING

Exacta (also known as perfecta or correcta) is a contract by the purchaser of a ticket combining two horses in a single race, selecting the two horses that will subsequently finish first and second in that race. Payment of the ticket shall be made only to the purchaser who has selected the same order of finish as officially posted.

The exacta is not a parlay and has no connection with or relation to the win, place and show betting and will be calculated as an entirely separate pool.

If no ticket is sold on the winning combination of an exacta pool, the net pool shall be distributed equally between holders of tickets selecting the winning horse to finish first and/or holders of tickets selecting the second place horse to finish second.

If no ticket is sold that would require distribution of an exacta pool to a winner as above defined the Permittee shall make a complete and full refund of exacta pool.

In case of a dead heat between two horses for first place, the net exacta pool shall be calculated and distributed as a place pool to holders of tickets of the winning combinations. In case of a dead heat between two horses for second place, the exacta pool shall be figured as a place pool, the holders of tickets combining the winning horse and the two horses finishing second participating in the payoff.

In the event of a dead heat for second place, if no ticket is sold on one of the two winning combinations, the entire net pool shall be calculated as a win pool and distributed to those holding tickets on the other winning combination. If no tickets combine the winning horse with either of the place horses in the dead heat, the exacta pool shall be calculated and distributed as a place pool to holders of tickets representing any interest in the net pool.

In the event of an entry finishing first and second, the net exacta pool shall be distributed to holders of tickets selecting the entry to win combined with the horse finishing third.

If the exacta is sold as a $3.00 ticket the number of winning tickets shall be converted into money by multiplying that number by three.

The net pool shall be divided by this number to get the unit per one dollar. This dollar unit shall be multiplied by three to get the price per winning ticket.

PERFECT SIX RULES SUMMARY

1. Perfect Six is a $2 bet in which you must correctly select the six winners of designated races 4 through 9 in order to win or participate in the major winning pool.
2. 50% of the net Perfect Six parimutuel pool is distributed to players who have picked six winners in races 4 through 9.
3. 50% of the net Perfect Six parimutuel pool is distributed to players who pick the second most number of winners in races 4 through 9, but less than six.
4. If no player picks six winners, 50% of the net parimutuel pool is carried over to the next racing day, to be won by those picking six winners. This process will continue each day until a player picks six winners.
5. In the event of a scratch, the betting favorite of the race will be substituted for the scratch for all purposes including pool calculations and payoffs.

Mark selections and call to seller at any window.

Source: https://www.industrydocuments.ucsf.edu/docs/kjyn0004

TRIFECTA WAGERING

a. The Trifecta is a contract between the purchaser of a ticket and the Association combining three (3) runners that will finish first, second and third in that race in the exact order of finish as officially posted.

b. The Trifecta is not a parlay and has no connection with or relation to any other form of wagering and will be calculated in an entirely separate pool.

c. Selections are to be made by program numbers. Large numbers appearing on the tickets are program numbers of the horses that have been selected to finish first, second and third.

d. No exchange of tickets. There positively shall be no exchange of tickets after the purchaser thereof has left the sales window.

e. If a runner is scratched or declared a non-starter, no further Trifecta tickets may be issued designating such a runner, and all tickets previously issued designating such a runner shall be refunded and the money deducted from the gross pool.

f. If no ticket is sold on a winning combination of a Trifecta pool, the net pool shall then be apportioned equally between those having tickets selecting the first and second place runners.

g. If no ticket is sold selecting the first and second runners in the Trifecta pool, the net pool shall then be apportioned equally between those having tickets selecting the first and third runners.

h. If no selection be made as above mentioned, those having selected the second runner for second and the third runner for third with any other runner shall divide the net pool and be paid the same payoff price.

i. If no ticket is sold that would require distribution of the net Trifecta pool to a winner as above defined in f through h, the net pool shall then be apportioned equally between those having tickets selecting the runner that finished first in the Trifecta race.

j. If no ticket is sold that would require distribution of the net Trifecta pool to a winner as above defined in f through i, the net pool shall then be apportioned equally between those having tickets selecting the runner that finished second in the Trifecta race. If no ticket is sold that would require distribution of the net Trifecta pool as above mentioned, the net pool shall then be apportioned equally between those having tickets selecting the runner that finished third in the Trifecta Race.

k. In case of a dead heat for first place, the winning combinations shall include the first two runners as finishing in either position and the runner finishing third. In case of a dead heat to place, the winning combinations shall be the runner finishing first and the two runners finishing in a dead heat to place, as finishing in either position. In case of a dead heat for third, the winning combinations shall be the runner finishing first, the runner finishing second and the two runners finishing in a dead heat for third, as finishing in either position. All combinations as described above shall be divided into separate pools and calculated as a place pool and paid off accordingly.

l. In case of a triple dead heat or double dead heats, the Trifecta pool will be divided by the number of all such win, place, and show combinations thus formed, calculated as separate pools and paid off accordingly.

m. There will be no entries or fields in Trifecta wagering.

n. No "Trifecta" tickets will be honored if torn in two or more pieces, or if mutilated or altered in ANY manner.
